CONTEMPORARY PHYSICS

a review of physics and its applications

Editor
Professor J. S. Dugdale — Leeds

Reviews Editor
Professor C. J. Isham — London

Editorial Board
Dr K. M. Bowkett — Cambridge
Professor E. J. Burge — London
Professor B. R. Coles — London
Professor Sir Charles Frank, O.B.E., F.R.S. — Bristol
Sir John Mason, C.B., F.R.S. — Bracknell
Dr M. K. Nevitt — Argonne
Professor Sir Rudolph Peierls, C.B.E., F.R.S. — Oxford
Professor M. J. Rees, F.R.S. — Cambridge
Professor G. W. Series, F.R.S. — Oxford
Sir Arthur Vick, O.B.E. — Warwick

Consultant Editors
Professor P. G. de Gennes — Paris
Professor R. Kaischew — Sofia
Professor Sir Nevill Mott, F.R.S. — Cambridge

VOLUME 25

JANUARY to DECEMBER 1984

Contents of Vol. 25 (1–6)

Taylor & Francis
London and Philadelphia

Volume 25 Number 1 Jan/Feb 1984

1 Laser Spectroscopy
G. W. Series

31 Plasmas and Intense Laser Light
E. T. Kennedy

59 Soap, Cells and Statistics: Random Patterns in Two Dimensions
D. Weaire and N. Rivier

101 Book reviews

106 Books received

Volume 25 Number 2 Mar/Apr 1984

109 Langmuir–Blodgett Films
G. G. Roberts

129 Recent Advances in High Resolution Acoustic Microscopy
M. Nikoonahad

159 The Electronic Structure of the Elements from Gas-Phase X-Ray Photoelectron Spectroscopy
M. Salim Banna

177 Obituary

Essay Reviews:

179 Direct Nuclear Reactions
W. E. Burcham

181 Initial Conditions
J. E. Paton

187 Book reviews

207 Books received

Volume 25 Number 3 May/Jun 1984

211 The Electrical Resistivity of the Simple Metals
Nathan Wiser

249 The Electrical Properties of Dislocations in Semiconductors
Abbas Ourmazd

267 The Earth's Magnetic Field
David Gubbins

Essay Reviews:

291 High Fluid Magnetism
E. P. Wohlfarth

294 Early Particle Physics
G. D. Rochester

300 The Rough with the Smooth
J. M. Hammersley

303 Book reviews

309 Books received

Volume 25 Number 4 Jul/Aug 1984

315 Microwave Spectroscopy in Oxford: The First Decade
Part I: Microwave Gas Spectroscopy
B. Bleaney

331 Tokamak Physics
M. G. Haines

355 Tests of Gravitation and Relativity
Robert F. C. Vessot

381 The Evolution of Biological Macromolecules
A. C. T. North and J. E. Lydon

Essay Review:
395 Cockcroft and the Atom
Sir Arthur Vick

401 Book reviews

413 Books received

415 Erratum

Volume 25 Number 5 Sep/Oct 1984

419 Microwave Spectroscopy in Oxford: The First Decade
Part II: Electron Magnetic Resonance
B. Bleaney

441 NMR Imaging
D. R. Bailes and D. J. Bryant

477 Colour Vision
D. H. Foster

Essay Reviews:
499 Into the Depths of Space
G. R. Noakes

500 A Non-Specialist's Guide to Particle Physics
G. D. Rochester

503 Book reviews

513 Books received

Volume 25 Number 6 Nov/Dec 1984

517 Guest editorial
G. R. Noakes

519 Millimetre and Submillimetre Astronomy
A. S. Webster and M. S. Longair

535 Rayleigh–Benard Convection
P Bergé and M. Dubois

583 Schrödinger's Cat and her Laboratory Cousins
A. J. Leggett

Essay Reviews:
599 Topics in Ocean Physics
K. Bowden

603 On Size and Life
W. B. Yapp

607 Book reviews

617 Books received

AUTHOR INDEX (Vol. XXV)

BAILES, D. R., and BRYANT, D. J., NMR Imaging, 441

BERGE, P., and DUBOIS, M., Rayleigh–Benard Convection, 535.

BLEANEY, B., Microwave Spectroscopy in Oxford: The First Decade Part I: Microwave Gas Spectroscopy, 315

BLEANEY, B., Microwave Spectroscopy in Oxford: The First Decade Part II: Electron Magnetic Resonance, 419

BOWDEN, K., Essay Review, *Topics in Ocean Physics*, 599

BRYANT, D. J., *see* BAILES, D. R.

BURCHAM, W. E., Essay review, *Direct Nuclear Reactions*, 179

DUBOIS, M., *see* BERG, P.

FOSTER, D. H., Colour Vision, 477

GUBBINS, D., The Earth's Magnetic Field, 267

HAINES, M. G., Tokamak Physics, 331

HAMMERSLEY, J. M., Essay review, *The Fractal Geometry of Nature*, 300

KENNEDY, E. T., Plasmas and Intense Laser Light, 31

LEGGETT, A. J., Schrödinger's Cat and her Laboratory Cousins, 583

LONGAIR, M. S., *see* WEBSTER, A. S.

LYDON, J. E., *see* NORTH, A. C. T.

NIKOONAHAD, M., Recent Advances in High Resolution Acoustic Microscopy, 129

NOAKES, G. R., Essay review, *Into the Depths of Space*, 499

NORTH, A. C. T., and LYDON, J. E., The Evolution of Biological Macromolecules, 381

OURMAZD, A., The Electrical Properties of Dislocations in Semiconductors, 249

PATON, J. E., Essay review, *The Very Early Universe*, 183

RIVIER, N., *see* WEAIRE, D.

ROBERTS, G. G., Langmuir–Blodgett Films, 109

ROCHESTER, G. D., Essay review, *The Birth of Particle Physics*, 294

ROCHESTER, G. D., Essay review, *A Non-Specialist's Guide to Particle Physics*, 500

SALIM BANNA, M., The Electronic Structure of the Elements from Gas-Phase X-Ray Photoelectron Spectroscopy, 159

SERIES, G. W., Laser Spectroscopy, 1

VESSOT, R. F. C., Tests of Gravitation and Relativity, 335

VICK, SIR ARTHUR, Essay review, *Cockroft and the Atom*, 395

WEAIRE, D., and RIVIER, N., Soap, Cells and Statistics: Random Patterns in Two Dimensions, 59

WEBSTER, A. S., and LONGAIR, M. S., Millimetre and Submillimetre Astronomy, 519

WISER, N., The Electrical Resistivity of the Simple Metals, 211

WOHLFARTH, E. P., Essay review, *High Field Magnetism*, 291

YAPP, W. B., Essay review, *On Size and Life*, 603
